20th GÖKOVA GEOMETRY-TOPOLOGY CONFERENCE
May 27 – June 1, 2013

Participants of the 20th Gökova Geometry-Topology Conference

PREFACE

This volume contains articles from the twentieth Gökova Geometry Topology Conference. We thank all the participants and the speakers of this conference for making it a very lively meeting. Here are many interesting research and survey papers, as well as the two longer articles from the minicourses, one delivered by Tobias Ekholm on topological strings and knots, another by Mahir Can about representations of G_2 . We thank both TÜBİTAK and NSF for funding this conference, and thank IP for printing and distributing these proceedings, and also thank Selahi Durusoy for putting these proceedings together. Finally, many thanks to Hotel Yücelen for hosting and supporting us to realize this meeting on the wonderful scenic coast of Gökova Bay.
